

Take advantage of DIY balance transfers in online banking. Transfer your high-rate balances right away...and pay NO balance transfer fees! Log in to digital banking (online or in the mobile app). Go to My Cards, choose Balance Transfer under Manage Card then follow the prompts. You'll need the transfer amount, your other credit card number, creditor name and payment mailing address.

The transfer can be viewed under the "transactions" tab as a pending item until it is posted after the next processing cycle.

The transfer amount will reduce your available credit as soon as it's authorized.

Any accrued interest in the original card (before the transfer posts) is your responsibility.

Use Apple Pay®, Google Pay™, or Samsung Pay® with your credit card to pay quickly and conveniently at checkout in stores, online and for in-app purchases.
